Why Attend?

A survey by the National Association of Corporate Directors indicates that company boards are worried about cyberattacks on their networks and connected devices. Is your company prepared to withstand a cyberattack? What are current "best practices" for companies and individuals? Come hear from professionals working in the cyber security and data privacy field to learn about current threats, how to best protect company operations and information and how to be in compliance with certain laws in this realm.

Who Should Attend?

This program should appeal to anyone who has a role regarding personal or confidential information – whether the information is that of a customer, employee, patient, student, job applicant or it is a trade secret or other proprietary information. Board members, CEOs, CIOs, CFOs, HR, PR departments, in-house and general counsels, and insurance and risk managers all are part of the team.

Kentucky Chamber Membership

It's not too late to take advantage of the Kentucky Chamber member discount. To learn more about membership, call 502-695-4700 and ask for a membership representative.
